

Portsmouth City Area Information

**Everyone has the
right to feel safe.**

If you don't feel safe
the agencies in this
leaflet are here to
support you.

General Information

It always helps to know your rights. If you work for someone that is treating you badly and you think it might be breaking the law you can report it. Health and safety law provides protection for migrant workers whether they are working here legally or not. All people at work, including agency workers, enjoy these rights from their first day of work:

- the National Minimum Wage;
 - working time rights (including breaks, paid holidays and a limit on the working week);
- health and safety protection;
- the right to join a union; and
- protection from unlawful discrimination
